

## WOMEN OFTEN GET WEAK AND SICKLY AS WINTER COMES

Lady Clerk at Drug Store Gives Suggestion for Simple Home Tonic.

**MAKES YOU FEEL WELL AND STRONG ALL WINTER**

"I felt badly all summer long myself and I know how it feels to be nervous, irritable and have no appetite, energy or strength. I had to force myself to eat all summer long. Nothing tasted good. I would get up mornings to go down to the drug store and feel so tired, weary and sluggish I could hardly get up enough gumption to get my clothes on. I lost weight, too, so when cool weather began coming on I knew I had to have a tonic and I'll tell you what is the best on the drug store shelf, in my opinion, is Mr. Earle's Hypo-Cod. I'm sure Earle's Hypo-Cod is the best general tonic money can buy. I know what it has done for hundreds of customers in the store. I know what it did for me and, besides being powerful and good, it tastes nice and does the work quick. I'm feeling fine now. Weight has been increasing. Eat hearty three times a day and anything I want. My sleep is restful and refreshing. My nerves are steady as a stone wall. I'm feeling good all the time, and everything is coming out declared Josephine Griffith, 723 Sheridan Ave., Detroit, and a most popular saleslady in Cunningham's Drug Store.

Get rich, red, warm blood. Don't shiver all winter. Strengthen lungs and throat. Don't have catarrh, colds and coughs. Fortify yourself. Don't fall victim to pneumonia, grippe or winter flu. Speed up appetite and digestion. Enjoy your meals—hot cakes, pastries and heavy winter foods. Hypo-Cod is a real modern, powerful, nice tasting tonic. Costs very little. Come down to the drug store and get two or three bottles. You'll be delighted. Earle Chemical Co., Wheeling, W. Va.—Advertisement.

Warden Hulbert stated he would accept the appointment.

Governor Alex J. Groesbeck, in his first address to the 1923 state legislature, will vigorously oppose any action by the legislature making possible a state income tax, it has been learned from close friends of the governor. His efforts on the whole, will be directed toward minimizing taxation in the state, it was said. State senators and representatives are arriving here singly and in pairs for the opening session.

Langley, drowned when an automobile in which he was riding was driven into the St. Joseph river during a fog two weeks ago.

Jay Harrison Sherk, a book salesman of North Mankato, Minn., about 40 years old, was killed in a crossing crash at Grawn, Mich., when a Pere Marquette passenger train hit his light touring car. The accident was on the exact scene of a similar tragedy several weeks ago. The view of the crossing is not obstructed.

According to figures in the secretary of state's office, Lansing, approximately 35,000 automobile owners have failed, to date, to obtain certificates of title for their cars. Both women protested their innocence to the last.

Governor Groesbeck has paroled Francis Cona, a life term inmate at Michigan State Prison at Jackson, who has served eight years and seven months on conviction of having shot and killed Patrolman Charles Schoof of Detroit the night of August 19, 1913. The parole is on the ground that the evidence offered at the trial did not warrant a conviction and that there is strong presumption that he is innocent.

Refused a kiss by his wife, Claude Frits, Lansing, 31 years old, walked across the street and shot himself with a shotgun. He is in a serious condition. Mrs. Frits told the officers her husband returned from work and asked her for a kiss. She said she replied that she was too busy and she "blew" him a kiss as he left the room. She said her husband had been despondent for several days.

Is an autoist entitled to damages from the city if he wrecks his car in running into a tree allowed to grow in the center of the street? The Kalamazoo city commission has answered that question in the negative in the case of R. Ghalner. The latter complained he could not see the tree until it was too late to avoid the collision. The case may be carried to the courts.

## KELLER BRANDS DAUGHTERY HEARING AS "WHITEWASH"

OSCAR E. KELLER.

Washington—Representative Keller, of Minnesota, refused to participate further in the hearings before the house judiciary committee on the impeachment charges brought by him against Attorney General Daugherty. Characterizing the hearings as a "comic opera performance," he declared he would be untrue to his responsibility as a member of the house if he assisted further in "a bare-faced attempt to whitewash Harry M. Daugherty."

Immediately after he announced his withdrawal, the committee, in open session and without leaving its place, voted to go on with the hearings; to subpoena Mr. Keller as a witness, put him under oath and question him as to the basis for his charges of high crimes and misdemeanors against the attorney general.

## APHASIA VICTIM FINDS FAMILY

Man Joins Wife and Children After Wandering Three Years.

Sault Ste. Marie, Mich.—A lapse of memory dating over a period of nearly three years, which shut off communication with his wife and two children, ended for Zenith Holtzlander, a mechanic, following an operation in a Kansas City hospital recently, and the family, all in good health, though with no means of subsistence, has been reunited in the Sault.

Holtzlander told here how he left his comfortable home in Oklahoma City one morning in April, 1920, and how he again remembered in October, 1922, that he had a wife and child. Between those dates he knew virtually nothing of his past. He fell victim to aphasia and never returned to his home. His wife believed him dead, and she was badly shocked when he appeared and embraced her in the Bethel home here.

## ASKS ALLIES TO CANCEL DEBTS

Premier Bonar Law Indorses Plan for All-around Cancellation.

London—Premier Bonar Law in an important statement in the house of commons declared frankly for the policy of the Balfour note, which advocated an adjustment of inter-allied debts by an all-around cancellation, England, on her part, shouldering her share of reparations to be paid by Germany.

The remainder of Premier Bonar Law's speech was clearly addressed to both France and the United States; to France, a plan for moderation in dealing with Germany on the ground that that country is already on the verge of collapse; to America, a call for help and co-operation in settling the different problems of reparations and inter-allied debts.

## STRANGE ADVANCE OF STERLING

Experts Agree Increase Will Help England to Pay U. S.

London—The financial world here is still mystified by the strange advance of the pound sterling. Experts agree that whether it is due to a surfeit of New York with gold or a reduction of business due to the new high tariff wall, the lessening of the premium on the dollar means a big saving in the settlement of the war debt, which the United States expects British to pay in full.

The Evening Standard scoffs at the suggestion that the British government is behind the advance, declaring it had been buying dollars steadily, apparently in connection with arrangements for settling the debt to America.

**Doubts Devil's Existence; Deposed.**

Liberty, Mo.—Because he doubted that a devil ever existed, Dr. A. Wakefield Slaten has been ousted as head of the department of Biblical literature at William Jewell college here, he announced. Dr. Slaten's book, "What Jesus Taught," was characterized as "radical" because it declared the story of creation in Genesis was an "interesting Hebrew folk tale." "The Bible is to be studied and revered for its value, but it is not all of equal value," Dr. Slaten said.

The mudhen, released, flew away.

Wonderful Stock Raising Country

**Native Grasses are Rich and Abundant**  
Cattle fatten upon them without any grain being fed. Limited capital on high-priced lands is not a success, neither can the tenant burdened with high rents hope to succeed. Land may be purchased from the Railway Companies or from responsible land companies or from private owners. Free homestead of 160 acres each are to be had in the more remote districts.
